Azure Entra ID Mindmap

Microsoft Entra ID

Users [adUsers]

- Licenses
- Assigned roles
- Azure role assignments
- Authentication methods
- Self-service password reset
- User settings
- Legacy MFA [adLegacyMfa]

External Identities [adGuests]

- External collaboration settings
- Cross-tenant access [adCTAS]
- Cross-tenant synchronization
- Identity providers

Groups [adGroups]

- Azure role assignments
- Administrative units
- Self-service group management
- Group expiration
- Group naming policy
- Group licensing
- PIM for Groups
- Dynamic groups
- Sensitivity labels
- Group writeback

Roles & admins

- Administrative units
- Delegated admin partners
- Protected actions

Protect & secure

- Named locations
- Custom controls
- Terms of use
- Authentication context
- Authentication strengths [adAuthStrength]
- Continuous access evaluation
- Conditional Access [adca]
 - Sign-in frequency
 - VPN connectivity
 - Token protection
 - App protection (MAM)
 - Device compliance
- Identity Protection [adIDP]
- Identity Secure Score [adScore]
- Authentication methods [adAuth]
 - Microsoft Authenticator app
 - Windows Hello for Business
 - Certificate-based authentication
 - FIDO2 security key
 - Microsoft Authenticator phone sign-in
 - Temporary access pass
- Custom security attributes
- Verified ID

Hybrid management

- Connect Sync
- Cloud Sync
- Password hash synchronization
- Pass-through authentication
- Federation
- Seamless single sign-on (SSO)

Devices [adDevices]

- Azure AD registered devices
- Azure AD joined devices (AADJ)
- Hybrid Azure AD joined devices (HAADJ)
- Enterprise SSO plug-in for Apple devices
- Azure AD login for Linux
- Primary Refresh Token (PRT)
- Device settings [adDeviceSettings]
- Enterprise state roaming
- BitLocker keys

Applications [adAppReg & adEntApp]

- Single sign-on
- App certificates & secrets
- App roles
- Token encryption
- Token configuration
- Scopes and permissions
- Custom security attributes
- App manifest
- Application & HR provisioning
- Application gallery
- Self-service access
- My apps
- Consent and permissions
- Tenant restrictions
- Application proxy
- Managed identities
- Workload identity federation
- Custom authentication extensions
- Sign-in logs [adSign]
- Audit logs
- Provisioning logs
- Log Analytics
- Diagnostics settings
- Workbooks
- Usage & insights
- AAD Connect Health [adAadHLog]
