

# Nextcloud PI on LXC Container

- [Nextcloud 503 service unavailable](#)

# Nextcloud 503 service unavailable

Running nextcloud PI on LXC sometimes it stops working and needs a refresh of php service.

```
$ sudo systemctl stop php8.1-fpm.service  
$ sudo systemctl disable php8.1-fpm.service  
$ sudo systemctl enable php8.1-fpm.service  
$ sudo systemctl start php8.1-fpm.service
```
